FRANCIS CAWICH

Software Developer Database
Developer

ABOUT ME

- I am an adaptive software developer with a strong background in backend technologies like Node.js and Ruby on Rails. My expertise extends to various databases including MongoDB, MySQL, and Google BigQuery. I am proficient in version control systems like GitHub and Git. Additionally, I have experience working with Google Cloud services. On the frontend, I excel in React development, allowing me to seamlessly integrate both backend and frontend aspects of development.

EDUCATION

Computer System Engineer
Instituto Tecnologico de Chetumal
